

IB Math HL Requirements for 2007-2008

Requirements for IB Diploma Candidates:

1. Successfully complete AP Calculus BC by the end of grade 11 before taking IB Math HL in grade 12
- OR -
Complete AP Calculus BC and IB Math HL concurrently in grade 12
2. Obtain approval from grade 11 math teacher (either AP Calculus BC or PreAP Precalculus teacher) and the IB Coordinator to take the Math HL exam (as opposed to Math SL)

Requirements for Non-IB Diploma Candidates:

1. Successfully complete AP Calculus BC by the end of grade 11
2. Complete AP Statistics by the end of grade 11
3. Obtain approval from AP Calculus BC teacher
4. Must be willing to complete all IB internal assessment requirements throughout the course and to fully participate in the review process before the IB exam in May. This may be a challenge for seniors who will not be taking the IB exam!
